in association with the

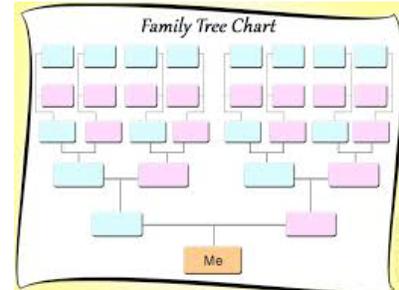

JEWISH PUBLIC LIBRARY

is pleased to announce as our featured speaker:

Gary Perlman

**How Volunteer Genealogy Improved his Research Skills,
Strengthened his Family Relations, and Created New Tools**

Gary has done volunteer genealogy at a geriatric centre for a dozen residents and their families. During the process, he improved his research skills. After a year of this, he decided to grow his own family tree. He researched the immigration stories of all his cousins' grandparents, bringing them all closer. He even developed some tools to make his research more productive and which he will share.
